

Dear Chief Recorders,

Due to World Aquatics recently change of factors, I have a new version of my scoring program ready.

There is not only changes in present factors, but also some new factors to consider when calculating the score.

#### Factors for Juniors/Seniors

##### **Technical Routine:**

T.R.E.	0,8
Acrobatics	0,7
Hybrids	0,4
Choreography & Musicality	1,8

##### Free Routine – Solo + Duet:

Acrobatics	0,5
Hybrids	0,5
Choreography & Musicality	1,4

##### Free Routine – Team:

Acrobatics	0,5
Hybrids	0,5
Choreography & Musicality	2,4

##### Acrobatic Routine:

Acrobatics	0,8
Choreography & Musicality	1,2

#### Factors for Youth/12andUnder

No change at this point. Review is still ongoing.

All these changes of factors are implemented in version 15, now uploaded on my server:

[Zoolz](#) | [Share](#) | [Revolutionera affärs moln backup](#)

All controls of the factors are in the “Data”-sheet.

It is a very fast change of the program, and I haven’t done extensive testing’s.

But I have done a quick double check with the scorings from the Super Final in Oviedo this weekend (where they are running by the new factors).

And all results seem to be correct in my program.

But if you find anything incorrect – pls let me know as soon as possible.

Hope you find the program useful!

Best Regards  
Thomas
