INFORMATION BULLETIN N° I

PRESIDENT MESSAGE

It gives me great pleasure to introduce this Information Bulletin, which contains useful practical information to help you organise your participation at the 2024 European Aquatics Championships in Belgrade, Serbia, where the competitions will take place from 10 - 23 June, with the Masters athletes competing later in the month.

This edition of the European Aquatics Championships is more significant than usual because we wanted to maintain the tradition of having the event in Olympic year, to offer athletes a last chance to qualify for the Olympics, even though we need to replace the original host Kazan, and, unusually, there was a world Aquatics championships in Doha, Qatar in February 2024.

Great efforts have been made to ensure that the pools and open water facilities in Belgrade will give athletes the best possible environment to perform and ensure that fans, and millions of TV viewers around Europe, will be able to enjoy top class competition.

I would like to warmly thank our friends at the Serbian Swimming Federation, led by President Ms Snezana Zugic as well as my friend and Vice President of European Aquatics, Vanja Udovicic, for helping to ensure that our flagship event could take place under the best possible conditions, despite having only just over six months of preparation time.

In total, we expect close to 1000 athletes from Europe, across the aquatic disciplines of swimming, open water, artistic swimming, and diving. The

swimming/artistic swimming competition will be at the Sports Centre Milan Gale Muskatirovic, an iconic venue originally built to host the Aquatics World Championships, with diving taking place at the Serbian Institute for Sports and Sports Medicine. The open water competition will take place in Ada Ciganlija, a popular recreational area situated on an island in the Sava River, near the city.

This event is the biggest, and most important, in the European Aquatics calendar and it's timing, a month before the start of the 2024 Olympic Games in Paris will make it even more special.

Serbia is a sport loving country with rich history, but it is becoming increasingly known as a place that also hosts major competitions, across all sports, and this is a tribute to the city and national authorities, who understand the value of sport and are ready to commit to hosting major international events.

You will find in this bulletin, all the key facts and information to allow you to plan and organise your participation.

Finally, it's important to note that this is the first year of the implementation of the European Aquatics Strategic Plan 2024-2030, and a key part of this work will be to launch specific strategies for each of the aquatic disciplines.

Thank you for your attention and I look forward to seeing you in Belgrade.

Antonio Silva
President of European Aquatics
